FOREWORD

This report on the activity of fishing vessels in the size range 25.0-39.9 feet registered length, respectively 8.0-12.9 metres overall (longest) length in 1979 and 1981, is based on data from local fisheries authorities (fisheries guidance councellors/fisheries boards). They were assembled in connection with the cost and earnings studies carried out by the Budget Committee for vessels in this size group.

The report has been prepared by Jan E. Hellesland and approved by the Budget Committee for the Fishing Industry.

TABLE OF CONTENTS

	Page
1. Introduction	1
1.1 Cost and earnings studies for fishing vessels 25.0-39.9 feet registered length (8.0-12.9 m.o.l. from 1980)	1
1.2 The background for and objectives of the the activity studies	2
1.3 Implementation of the activity studies	2
2. Results	
2.1 Summary-national overview 1979 and 1981	4
2.1.1 Composition of vessels operated the whole by county	4
2.1.2 Operating period by county/region	5
2.1.3 Operating period by fish species and gear	5
2.1 County summaries	5
2.2.1 Finnmark County	5
2.2.2 Troms "	6
2.2.3 Nordland "	7
2.2.4 Trondelag "	8
2.2.5 Nore and Romsdal "	10
2.2.6 Sogn and Fjordane "	11
2.2.7 Hordaland "	12
2.2.8 Rogaland "	13
2.2.9 Sorlandet (Agder Counties)	14
2.2.10 Ostlands Counties	15
3. Age distribution of vessels in size ranges 80-12.9m, 1981	16
3.1 Average age for various types and size groups, operated the whole year, and part-time operated 1981	16

Page

3.2 Distribution by county of whole-year operated vessels by vessel type, 1981 17

3.3 Average age for whole year operated vessels by county, 1981 17

4. Tables

Appendix A 18

Activity of Fishing Vessels in the size range 25.0-39.9 feet registered length in 1979 and 8.0-12.9 metres overall length in 1981.

1. Introduction

The activity studies are closely tied to the cost and earnings studies of the Budget Committee. The data in the collected material is chosen in order to be used in these cost and earnings studies.

However, the material contains so much information of interest outside the data used in the cost and earnings studies that they have been reworked and is presented here as a separate report.

Since the background and objectives of the activity studies have such close connection with the cost and earnings studies carried out by the Budget Committee, these studies will first be briefly discussed. The discussion will cover the connection between the activity and cost and earnings studies and also the implementation of the activity studies. Following this, the results of the activity studies will be presented.
